RB 4836 Vapor King

The Vapor King is a new concept blast cabinet which enables users to take advantage of all the many benefits of outdoor Vapor/Wet blast pressure units. Bringing those abilities indoors for use in all industrial inplant surface prep applications. Now you can Direct Pressure wet blast inside of a cabinet. WASH, DEGREASE AND BLAST all in one step!

The Vapor King is made from 12 guage stainless steel with 10 guage double panel doors. 100% laser cut and hand welded. An industrial blast cabinet that is built to last.

The Vapor King comes complete with our 900 CFM mist collector as well as a window wiper for optimal visibility.
